

## COBORPLUS 1039

### ❶ ➤ PRODUCT DESCRIPTION

Brazing flux for copper alloys

### ❷ ➤ PRODUCT CHARACTERISTICS

The COBORPLUS FLUX 1039 is composed of a fluoroborates mixture that allows the brazing of the parts at high temperature

It is a brown paste

- Interval of melting : 600 – 850° C
- Based metal : steel, brass, cast iron
- Filler metal : Cu/Ag

### ❸ ➤ PRODUCT APPLICATIONS

This flux has the characteristics to have an overall use, and it is very stable at the temperature.

### ❹ ➤ DIRECTIONS FOR USE

It can be used by dipping your hot brazing stick, and it can also be used by induction. It is easily washable with hot water

### ❺ ➤ USING CARE AND RECOMMENDATIONS

No particular risk

Refer to health and safety datasheet before use also available on our web site ([www.stts-flux.com](http://www.stts-flux.com)) or contact us directly
