FLUXCOAT 1052

Date of review :
29/12/2014
IR : 2

. PRODUCT DESCRIPTION

Powder used for brazing copper alloys and nickel alloys. It is an excellent cleaner. The flux is used for coating the rods together to a binder and a suitable solvent.

. PRODUCT CHARACTERISTICS

FLUXCOAT 1052 is a dry powder with a calibrated mesh size.

. PRODUCT APPLICATIONS

This flux is recommended for welding or brazing brass and copper alloys. It is used as coated flux on copper-zinc rod.

. DIRECTIONS FOR USE

The flux is used after pasting it in a suitable binder / solvent system when coating during the manufacturing of coating rod.

. USING CARE AND RECOMMENDATIONS

Refer to health and safety datasheet before use available on demand
