TECHNICAL DATA SHEET

FLUXEL AA 404

Date of Review :
04/11/2014 JPF
IR : 2

. PRODUCT DESCRIPTION

Crystallized white powder

. PRODUCT APPLICATION

For automatic wave tin plating or as additive to the ordinary resins to reinforce their fluxing power, particularly in the cored wires.
Used by automatic feeding.

ADVANTAGES :

- can be easily eliminated with common cleaning products
- need to clean the parts after brazing
- can be used on many materials as : copper, copper alloys, zinc and alloys

PHYSICAL PROPERTIES:

- White flowing powder
- organic
- melting point 80°C

. DIRECTIONS FOR USE

only the user can test and determine the process of use and decide if the test results are appropriate to his own or to his customer's requirements
