## TECHNICAL DATA SHEET

# FLUXEL CA 401

Date of Review :  
04/11/2014 JPF  
IR : 2

## . PRODUCT DESCRIPTION

resinous solid

## . PRODUCT APPLICATION

Wave tin plating or soldering iron plating of electronic components or as fluxing component of cored wires.

### ADVANTAGES

Flux incorporated to the filler metal wire  
No need to use any complementary flux  
Can be easily eliminated with common cleaning products  
Can be used on many materials as : copper, copper alloys, zinc and alloys

### PHYSICAL PROPERTIES

solid neutral  
melting point 80°C

## . DIRECTIONS FOR USE

Only the user can test and determine the process of use and decide if the test results are appropriate to his own or to his customer's requirements

ISO 9001  
ISO 14001
